P Integration Framework

ENTERPRISE SYSTEMS INTEGRATION SOLUTION FOR 3DEXPERIENCE

Your Enterprise Integration Solution for 3DEXPERIENCE Cloud and On-Premise Installations

The TECHNIA Integration Framework (TIF) is your key to unlocking seamless integration between your 3DEXPERIENCE platform and other enterprise systems. Built on cutting-edge technologies, industry standards, and our extensive experience in running 3DEXPERIENCE integration projects, TIF is a scalable and sustainable solution designed to create digital continuity across systems.

⊏ Integration Framework

Supported Software
TIF is a fully supported and upgradeable software product that integrates enterprise applications based on industry standards such as JMS, AMQP, and web services. With its scalability, it can handle even the largest implementations.

Development Toolkit
Our intuitive development toolkit offers simple configuration capabilities for setting up new integration use cases. Additionally, advanced features allow you to extend Integration Framework use cases without customization, empowering you to tailor the solution to your specific needs.

Proven Framework
Built on a robust architecture and framework, TIF incorporates best practices derived from our years of experience with customer integration projects. Benefit from a tried-and-tested solution that ensures smooth and efficient integration.

Modern Technology
TIF leverages modern technologies and integration standards, providing pre-built connectors for seamless integrations with other enterprise systems. Connect your 3DEXPERIENCE platform to SAP, JIRA, and Dynamics with ease.

Integration Framework

SOLVE INTEGRATION CHALLENGES

Experience extensive configuration capabilities to connect your 3DEXPERIENCE platform with any other enterprise system. TIF supports multiple integration techniques such as WebServices (SOAP and REST) and Messaging (JMS, AMQP, NativeMQ).

SUSTAINABLE SOLUTIONS

Avoid additional costs caused by system upgrades. TIF offers a supported software solution that seamlessly plugs into your enterprise architecture and scales alongside it.

ADMIN UI PROVIDES FULL CONTROL

Take charge of your integration processes with our comprehensive administrative user interface. Easily manage maintenance tasks, track transactions, monitor integration jobs, and gain valuable statistics to optimize performance.

Integration Platform as a Service (iPaaS) for 3DEXPERIENCE Cloud

Embrace the future of integration with TIF's cloud iPaaS. As businesses increasingly move to the cloud and with the evolution of the 3DEXPERIENCE Cloud EIF, our Integration Framework is also available as a SaaS Integration Tool. Connect your 3DEXPERIENCE Cloud effortlessly with other enterprise systems.

Pre-built Starter Kits for Rapid Deployment

Accelerate your integration deployment with our pre-built ERP Connectors. Take advantage of three different options to streamline your processes, systems, and tools.

3DEXPERIENCE to SAP Connector

Harness SAP's full potential and streamline your business operations by bridging the gap between SAP and the 3DEXPERIENCE Platform.

3DEXPERIENCE to Jira Connector

Bridge the gap between hardware and software development, enabling traceable collaboration among teams throughout your product's lifecycle.

3DEXPERIENCE to MS Dynamic 365 Connector

Seamless integration on cloud, on-premises, or hybrid, enabling efficient collaboration and leveraging the best-of-breed PLM and ERP platforms.
